*MANUFACTURING*

# **Perforation and Fabrication Buyer's Handbook**

**Patterns and Capabilities**

**"Do the right thing"**

*Michael L. Drake*

The Hendrick motto is proudly displayed in the lobby of Hendrick Manufacturing in Carbondale, PA

## **The Hendrick Motto:**

**"Do the right thing," was coined by Michael L. Drake during his tenure as president of the Hendrick Companies. It inspires every employee to do their best, be honest, respectful, and to interact with others with integrity. It embodies Hendrick's commitment to our customers, vendors and employees to always do the right thing.**

Since 1876, Hendrick has been innovating perforated metal solutions for a wide range of industries. Our expertise is unparalleled in the industry. The broad based knowledge that comes from working with multiple industries gives us a unique perspective on the latest manufacturing technologies and applications.

Our capabilities go way beyond perforation. We offer an array of high-tech fabrication options that can eliminate labor, time, and provide cost-savings for your completed assembly. Plus, our extensive range of services go one step further with partial to complete turn-key contract assembly operations.

# YOUR PERFORATION AND FABRICATION EXPERTS

With two ISO 9001 certified manufacturing locations, we can provide manufacturing flexibility to get product to you faster with minimized shipping costs. Plus, our large material inventory provides shortened lead times.

# WHY HENDRICK

# Hendrick MANUFACTURING

## What Makes Hendrick a Reliable Supplier?

### Inception Date

# 1876

Over 145 years of perforating and fabrication experience, providing quality you can trust.

### Customer Satisfaction Score

# 94%

Based on 108 completed surveys between 2021 and 2023.

### MANUFACTURING FOOTPRINT

# 125 K SQ FT

Employing an impressive array of machines, Hendrick uses the latest manufacturing technologies.

### Raw Material

# 30m+

In annual purchases. This purchasing power assures you access to metal during shortages.

### Average Employee Tenure

# 11 Years

Offering you knowledge and experience for excellent quality and service.

### ISO 9001 Certification

# 2015

Hendrick's built-in Quality and Lean approach assures you'll get satisfaction with every order.

### Industries Served

# 20+

Hendrick's depth of experience assures that you get products that match your needs.

### High Speed All Across Punch Presses

# 9

This is our core capability, providing the fastest and most economical perforating method.

### Perforating Patterns

# 2000+

In addition to our existing library of options, we can work with you to design a custom pattern.

## Other Benefits

### Flexible Supply Chain

- Vendor managed inventory
- Kanban
- Consignment - raw material or finished product
- JIT
- Blanket order contracts
- Toll processing

### Financial Strength

- Disciplined cost focus
- Solid operating results

### Lean Committed

- Dedicated lean resources
- Continuous, best practice lean events company-wide

### Vertical Integration

- In-house tooling capabilities (design and manufacturing)
- In-house punch manufacturing

### Family Owned

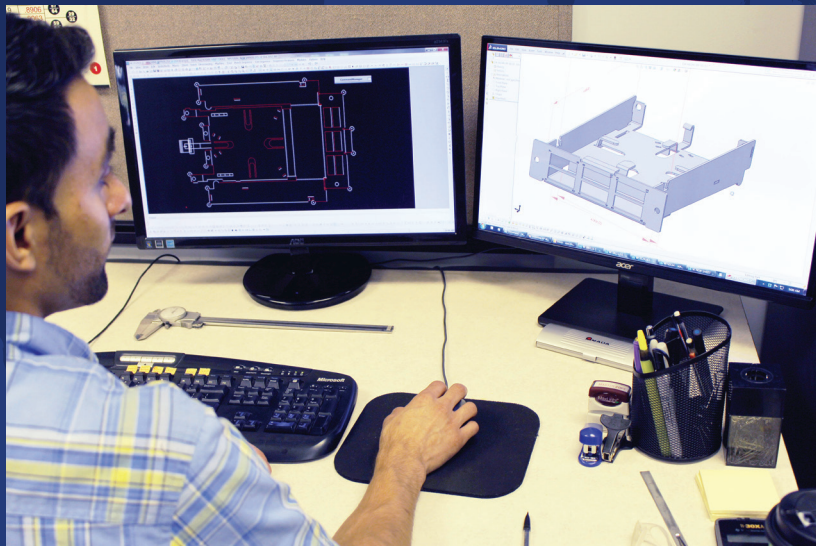

- Privately held
- Nimble-quick decisions

### Engineering and design support services

From basic projects, to those requiring complex and challenging solutions, Hendrick provides quality driven design assistance. We promote collaboration with our customers' engineers at each stage in the product life cycle.

#### Services include:

- Prototyping and production engineering support
- Revision control and product data management throughout the production cycle
- Design assistance for manufacturability and cost savings

Design and value engineering assistance is offered, providing a cost-effective approach to production.

#### Drafting Software

##### Solidworks Professional

- Creating 3D Part and Assembly Models
- Part Fitment Verification
- Creating Technical Drawings for use in Production
- Outputting Flat Patterns for Punching and Laser Cutting
- Determining weight of raw material and finished products

##### AutoCAD

- Creating 2D Part and Assembly Drawings
- Creating Technical drawings for use in Production
- Creating Flat patterns for Punching and Laser Cutting
- Perforation Tooling Design

# CAPABILITIES

# Hendrick MANUFACTURING

## Material Options

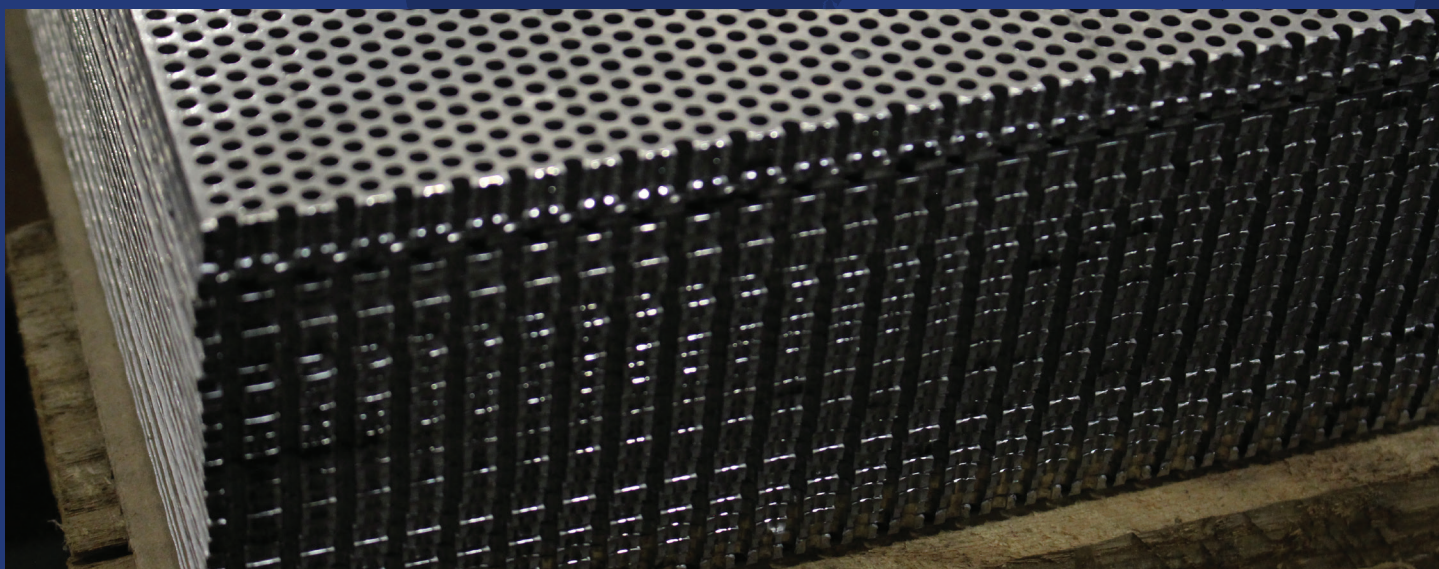

We maintain a large inventory of popular raw materials in stock, in both sheets and coils, providing you with buying power that leads to very competitive pricing and shortened lead times.

Plus, our no-minimum order policy offers the same fast delivery and lower pricing on small to medium volume orders.

## Tooling

With hundreds of precision high-speed perforating tools available, we can readily produce most hole pattern requirements.

Hendrick's in-house manufacturing of tools and punches assure that tooling can be made for custom jobs.

### Aluminum

- 3003, 5052, 6061, plus more

### Cold Rolled Steel

### Hot Rolled Steel

### Galvanized Steel

- G90, G60, E.G. plus more

### Stainless Steel

- 304, 316, 430, plus more

Plus copper, brass, monel, plastic and more!

# Hendrick MANUFACTURING

## INDUSTRIES

### Industries We Serve

#### Quality materials for diverse applications

Hendrick supplies perforated metal and fabrication to over 20 end markets across the globe, both directly and through our distribution channel partners. Whether you fit one of our major industries or a smaller, niche market, we have the manufacturing expertise and flexibility to provide quality materials for diverse and demanding applications.

# PERFORATING

# Hendrick

MANUFACTURING

## *All-Across, High Speed Perforating Presses*

All-across perforating presses provide a unique method of producing holes in metal quickly and economically. Unlike other perforating methods, Hendrick's all-across equipment can punch multiple rows of holes across the sheet, up to 60" wide, in one single stroke—and is capable of punching up to 600 strokes per minute. The equipment automatically feeds material and punches to complete a sheet extremely quickly. It's such an efficient way to perforate, other metal fabricators come to Hendrick for projects that require perforating to minimize their costs.

Unlimited patterns in round, square, slotted, ellipse, hexagon and a variety of decorative patterns.

- Perforation sizes from 0.027" in diameter and up
- Thicknesses ranging from .002" to 0.25"
- Perforate in sheet or coil

Additional In-House Perforating Services:

- Shearing
- Degreasing
- Leveling
- Knotching
- Forming
- Deburring
- Polishing

Get Industry  
Specific Information

### *Perforating for Low-Medium Volume Production or Unique Patterns*

For low volume or custom patterns, Hendrick can service your needs with our state-of-the-art CNC punch equipment. With punching equipment ranging from 20 to 50 tons, presses can produce components that are up to 60" wide and up to 3/8" thick. Meeting tight tolerances is not an issue. Plus, our punch/plasma combination machines can perform multiple operations that can reduce production costs.

"Hendrick's latest punching equipment provides amazing quality and speed—up to 1600 strokes/min."

# FABRICATING

# Hendrick MANUFACTURING

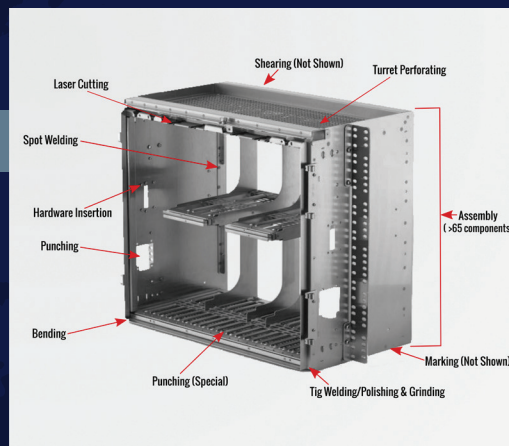

## Our Broad Range of Capabilities

Hendrick offers a full-line of sheet metal fabrication capabilities with dedicated equipment and experienced staff. We specialize in low to medium volume work, whether its value-add to our perforating process or a project that uses our complete end-to-end fabricating capabilities. Regardless of size, volume or material, our fabrication options can eliminate labor, time, and provide cost-savings for your completed assembly.

- Significant tool library
- Large to small components
- Prototype to production
- Partial to complete turn-key contract assembly operations

## Multiple Fabrication Services Available

- Punching
- Bending
- Notching
- Rolling
- Drilling
- Water Jetting
- Laser Cutting & Etching
- Plasma Cutting
- MIG & TIG Welding
- Spot Welding
- Hardware Insertion
- Heat Treating
- Turning
- Tapping
- Grinding
- Polishing
- Assembly
- Stamping

Forming	Whether you require one bend or need complex multiple bends, Hendrick can flawlessly form your parts to your exact drawing specifications.	Aluminum (.020" to .250") Stainless Steel (.020" to .250") CRS (.020" to .375") Galvanized, Aluminized, Copper, & Brass (Call for info)
Punching	From high speed punching to our combo punch and laser equipment, Hendrick has the technology to deliver.	Aluminum (.020" to .500") Stainless Steel (.020" to .250") CRS (.020" to .375") Galvanized, Aluminized, Copper, & Brass (Call for info)
Laser	The 8kW of fiber laser technology produces the fastest processing speeds with a high level of accuracy and unsurpassed quality with tolerances down to +/- .005.	Aluminum - to 1" Stainless steel - to 1.5" Mild steel - to 1" Copper - to .390" Brass - to .390"
Welding	Hendrick offers welding support for small weldments to heavy plate welding fabrications to complete your component assembly.	TIG, MIG, Spot, Stud Heavy plate or thin gauge Most alloys, including carbon steel, stainless steel, and aluminum.

### *8kw Fiber Laser Cutting*

With 8kW of laser cutting power, we've removed several obstacles for precise, custom designs when cutting metal. This latest in laser technology produces the fastest processing speeds, a high level of accuracy with tolerances down to +/- .005 and unsurpassed quality. Plus, we've broken the barrier for material gauge. The maximum sheet size is 84" x 160".

Hendrick's 8kW laser produces clean, smooth edges and no material warping.

## MANUFACTURING

### How to Order Perforated Material

Hendrick offers an unlimited number of pattern configurations in a wide range of materials. To assure quick and accurate quoting or delivery, please refer to these guidelines when ordering Hendrick's perforated materials.

**Material** – Indicate the type of material required and thickness or gauge. See page 6 for a list of Hendrick's raw materials. Other metals and plastics are available.

**Quantity** – Indicate number of sheets or linear length of coil required.

**Sheet Size** – Provide width and length. We can accommodate any size up to 60" wide.

Common sheet widths: 36", 48" and 60". Common sheet lengths: 96", 120" and 144".

### Specify Hole Specs

#### 1. Hole Shape

Round

Square

Slotted

Specialty

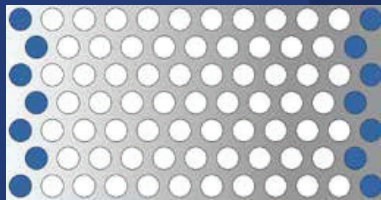

Hexagon

#### 2. Pattern Arrangement

Unfinished or Finished  
End Pattern

\* Pattern is based on a two-row tool. The end pattern for a four or eight-row tool may have a different appearance.

Staggered Pattern, 60° (Standard) or 45°

Straight Pattern

Unfinished End Pattern\*

Finished Pattern

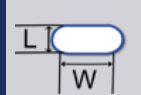

3. The hole size in inches\*\*

Round

Square

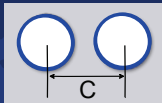

Slotted

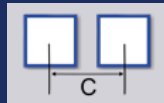

Hexagon

Contact  
Hendrick  
for  
Special  
Patterns

4. The hole centers (distance from the center of one hole to the center of the nearest hole in the next adjoining row) in inches.\*\*

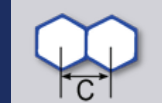

Round

Square

Slotted

Hexagon

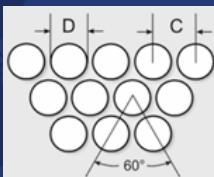

Contact  
Hendrick  
for  
Special  
Patterns

\*\*Note: Industry standards recommend not making the distance between holes smaller than the material thickness. If you a smaller distance, contact Hendrick to discuss your needs.

### Provide Open Areas

Provide the open area (total hole area, compared to sheet size) on the perforated sheet, indicated by percent. Typical open areas range from 2 to 80%, however 70% and higher can distort the material.

Round - 60°  
Staggered Center

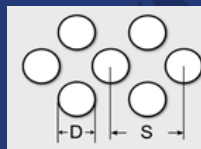

$$\frac{D^2 \times 90.69}{C^2}$$

Hexagon

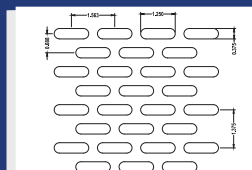

$$\frac{100 \times D^2}{C^2}$$

Round - 45° Staggered Center

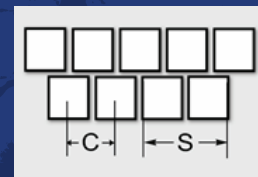

$$\frac{157.08 \times D^2}{C^2}$$

Round End Slot  
- Staggered Center

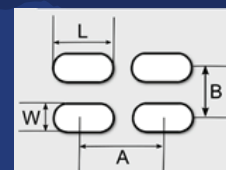

$$\frac{W(L-.215W)}{AB} \times 100$$

Square - Straight or 45°  
Staggered Center

$$\frac{157.08 \times D^2}{C^2}$$

Round End Slot  
- Straight Center

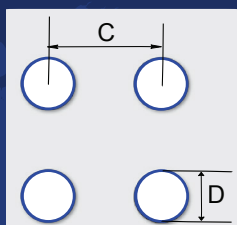

$$\frac{W(L-.215W)}{AB} \times 100$$

# HOW TO ORDER PERFORATED MATERIAL

# Hendrick

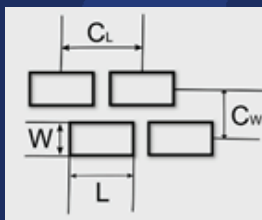

MANUFACTURING

Round - Straight Centers

$$\frac{D^2 \times 78.54}{C^2}$$

Square End Slot -  
Staggered or Straight Centers

$$\frac{L \times W}{C_W \times C_L}$$

Make it Easy!

Visit Hendrick's Online Open  
Area Calculator Page

## Specify Margins

Indicate the areas around the sheet which are un-perforated. Specify "Minimum" or "No Margins" when it's not important. When margins are required, state the margins for each side of the sheet. Wider margins can lead to distortion and may require additional leveling, increasing costs.

## Provide Additional Information

1. Forming – Provide forming operations that will be required to ensure formability of the sheet.
2. Finishing – If additional finishing is required to achieve a decorative appearance, durability or protection.
3. End use – Our experienced engineering staff will review your design to assure all your end requirements are met.

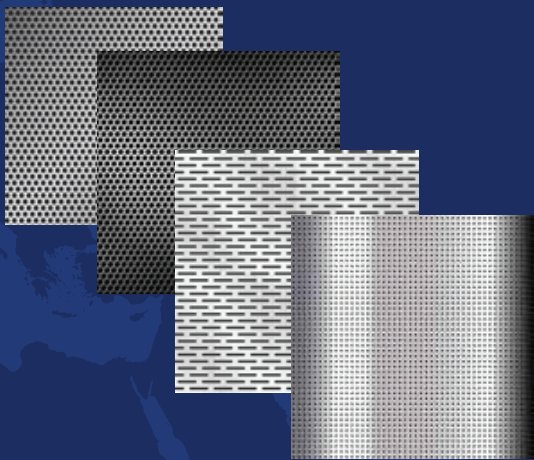

**Regardless of order size, small to large, Hendrick partners with our customers to optimize designs for improved quality, functionality and cost-savings.**

## PATTERN SAMPLES

A wide selection of perforated patterns are available in a variety of shapes, sizes and materials. The following pages provide a quick reference of Hendrick's popular perforated pattern options. If you don't see what you need, contact a sales representative to discuss your requirements at 800.225.7373.

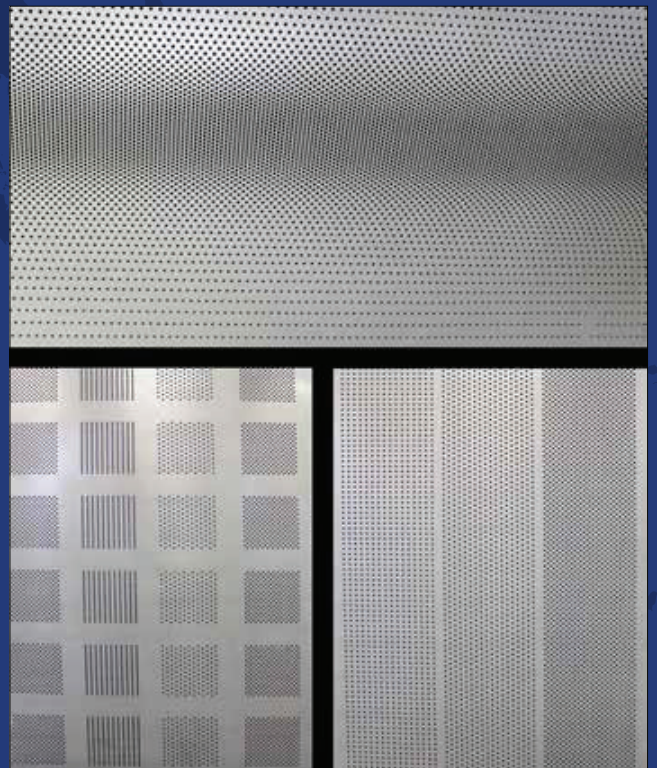

Visit Hendrick's Searchable Database of 100+ Popular Patterns & Download PDF/CAD Files of Any Pattern

### UNIQUE PATTERNS AVAILABLE

Hendrick is now capable of providing unique patterns on our high-speed, multi-punch Perforating Presses. No special tooling is required to punch these distinct patterns. Our software control systems and multi-stage gagging produces the custom patterns, all in the same set up for a truly distinctive look.

**Hendrick is the only perforator in North America who has the capabilities of producing these unique patterns using a high-speed press.**
